Hi Karla - I was hoping to schedule a time to talk - preferably before the close of business Monday. Do you have about 15-20 minutes?

Best Regards,

Dave Rauen

Hi Karla -

Thanks for getting back to me last week. We have been playing phone tag, but I understand you are often in the field. There are few items Joe and I would like to review with you.

1. Our current strategy is for INAWC to become the water utility for the US Census Bureau in Jeffersonville. This will result in the 3rd parties becoming separate clients to INAWC. It will also result in GSA decommissioning our water distribution facility. Does IDEM have any requirements in regards to shutting down the facility?
2. Do we need to amend our corrective action plan?
3. Does IDEM plan on doing some sort of origin study in regards to the contaminant?

Best Regards,
